

# A1 POSTER TEMPLATE

The BLUE line is the edge of the "text safe zone". No wording or logos should be nearer than 7mm from the edge of the poster (unless it bleeds off)

The pink dotted line is the trim line

The yellow area is the "bleed". If you want a image or photo to be printed to the edge of your design, the image **MUST** continue for an extra 3mm on every edge. This "bleed" is then trimmed off after printing and is essential to avoid any white edges showing.

Please also include crop marks on each corner of the pdf
