## KEY

— 7MM MARGIN  
"SAFE ZONE"

••• TRIM LINE

■ 3MM BLEED AREA

# A6 POSTCARD TEMPLATE

Front of postcard can be covered  
edge to edge in your artwork

The BLUE line is the edge of the "text safe zone". All text and imagery should be within this margin (unless it bleeds off the page).

The pink dotted line is the trim line.

The yellow area is the "bleed" area.  
If you want an image or photo to be printed

to the edge of your design, the image **MUST** continue for an extra 3mm on every edge. This "bleed" is then trimmed off after printing and is essential to avoid any white edges showing.

Please also include crop marks on  
your supplied artwork

148mm

If undelivered please return to:  
Full return address to go here

Rear of postcard can use all the areas covered by the image for artwork
